

Country Sass

- Verse 1* **When you left me, there was no goodbye,
Oh yeah! I guess I was supposed to cry,
Feel real sad, lonesome and blue,
And spend my nights thinking of you!**
- Verse 2* **Guess What! No tears are gonna flow!
Oh yeah! A broken heart isn't part of the show.
This country girl didn't come undone.
I'm a full time woman, second to none.**
- Chorus* **Your memory's fading into the past.
Your memory's faded. It didn't last.
I'm full of grit with a touch of class.
And you can kiss my country sass.**
- Verse 3* **I've got places to go. New people to see.
Tell everyone there's no 'you and me'.
I'm on the loose, not on the run.
Playing it single – having fun.**
- Verse 4* **I've got new rhythm in my shoes,
And I've got a brand new set of rules.
I'm a country woman, one of a kind.
I'm on the move – not lagging behind.**
- Chorus* **Your memory's fading into the past.
Your memory's faded. It didn't last.
I'm full of grit with a touch of class.
And you can kiss my country sass.**
- Verse 5* **Whether I'm wearing heels or boots
You can see my country roots
I'm a full time woman. I'll set the pace
I'm a credit to the female race.**
- Chorus* **Your memory's fading into the past.
Your memory's faded. It didn't last.
I'm full of grit with a touch of class.
And you can kiss my country sass.**
- End Chorus* **Yeah, I'm a full of grit with a touch of class,
and you can kiss my country sass.**
